Career Objective

I'm a motivated frontend developer with good knowledge of React.js, Next.js, and TypeScript. I enjoy building websites that look good and work fast. Passionate about learning, clean code, and solving real-world problems through technology, and looking for an opportunity to grow in a collaborative environment and contribute to impactful projects.

Skill Highlights

Frontend: JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, ShadCN UI, Ant Design, Redux Toolkit, RTK Query, React Query

Backend: Node.js, Express.js, MongoDB, Mongoose ODM, REST API

Tools: VS Code, Git CLI, GitHub, Postman, Chrome DevTools, ClickUp

Soft Skills: Communication, Adaptability, Time management, Patience, and Multitasking

Work Experience

TheDevGarden (Dhaka, Bangladesh)   *December 2023- March 2024*
Junior Software Developer (Front-end) - Full Time (Onsite)

- Playing a pivotal role in the front-end development of a **CryptoCurrency Website**, ensuring its successful journey from inception to production.
- Upholding code quality standards while actively involved in building new features, and codebase refactoring utilizing **JavaScript, React**, and other front-end technologies.

Projects

MediCare - [Live Site](#)

- Built a full-stack online doctor appointment platform with separate panels for users, doctors, and administrators to ensure role-based functionality.

- Designed and developed user-friendly interfaces using React.js.

- Integrated appointment scheduling features, allowing users to browse doctors, view profiles, and book appointments easily.

- Developed a secure doctor panel where doctors can manage their schedules, patient appointments, and profile information.

- Implemented an admin dashboard to monitor platform activity, manage users and doctors, and ensure system integrity.

- Ensured responsive design and performance optimization across all devices to enhance usability and accessibility.

NihonBeauty - [Live Site](#)

● Developed a feature-rich e-commerce website focused on cosmetics and beauty products, targeting a female customer base.

● Built dynamic product listing, filtering, and search functionality to help users easily find desired items.

● Designed an engaging and responsive UI using React.js, Next.js, and TypeScript, ensuring a smooth shopping experience across all devices.

● Integrated a secure shopping cart and checkout system with quantity management, total calculation, and order summary.

● Ensured accessibility and smooth navigation with clean UI/UX design, tailored for female users and mobile-first audiences.
